MAIN PROJECT ' MY STARTUP

Aug 2022 - Present

Foozy

MERN stack

Product Development

Figma

Canva

- Built and launched a food preordering platform in 3 months:
 - Empowered over 5 local vendors to collect online orders.
 - Executed a successful pilot run for 40 days, Partnered with with 2 real shops and serving 300+ happy customers.
 - Achieved sales of INR 50,000 during the pilot run, achieving a 20% increase in revenue for participating vendors.
- Technology and Design:
 - Leveraged Next.js and Tailwind CSS to build a highly interactive and user-friendly interface, resulting in a 30% reduction in order processing time.
 - Executed the backend using Express.js and MongoDB, enhancing data management and achieving a 40% improvement in system performance.
 - Crafted the UI/UX using Figma, resulting in a 50% decrease in user complaints and a increase in customer satisfaction.
- Deployment and Collaboration:
 - Rolled out the frontend on Vercel, backend on Railway, and database on MongoDB Atlas, ensuring a reliable and scalable platform with 99.9% uptime.
 - Performed user research and obtain feedback from 50 users to persistently refine the platform's user experience and drive data-driven design decisions.

MINI PROJECTS

Jan 2023 - Jul 2023

Freelance

Next.js

TailWind CSS

Communication

- Collaborated with 5 diverse clients to:
 - Enhanced conversational skills and styling abilities.
 - Exceeded requirements and facilitated clear communication. .
